Quality Control & Completion

PROJECT

BOEING 747 INSTALLATION & SITE CONSTRUCTION

Location : Poipet

Scope of work : Aircraft Support Base Construction (8,000 sq.m.)

Project Scope : The project involves the construction of an aircraft support base with a total area of approximately 8,000 sq.m. Installation of 60 cm diameter bored piles at depths of 10–12 meters.

Key Deliverables : Stabilized Foundation Base A multi-layered, compacted subbase designed to eliminate structural settling and withstand rigorous operational use.

Excellence in Execution : Our process is defined by transparency and a "100% completion" mindset, proven by our track record with national enterprises.

Complete Project

WORK PROGRESS & MANAGEMENT

- Site surveying and layout setting
- Soil investigation for foundation design

Utilizing heavy machinery (Excavators) for the strategic positioning of the airframe.

Bored piles Ø60 cm, depth approximately 10–12 m, to support heavy aircraft loads

100% project completion delivered on schedule, backed by formal engineering certification.

PROJECT

SAMUJANA POOL VILLAR @ SAMUI

Location : Koh Samui , Thailand

Scope of work : Luxury Tropical Residences & Hillside Construction

Project Scope : Full-scale construction management of ultra-luxury villas on a challenging hillside terrain, integrating complex structural engineering with modern tropical architecture.

Key Deliverables : High-performance structural foundations using natural stone, seamless infinity-edge pools, and expansive architectural glass systems designed to withstand coastal conditions.

Excellence in Execution : Over a decade of proven structural integrity and aesthetic durability, demonstrating superior craftsmanship that harmonizes minimalist design with the surrounding natural environment.

*Completed in 2009, this luxury villa project at Samujana, Koh Samui, Thailand was constructed by **THAIPHAT**.*

PROJECT

PRIVATE LUXURY RESIDENCE @ SUKHUMVIT , BANGKOK

Location : Sukhumvit, Bangkok

Scope of work : Full-scale construction of a multi-story luxury residence in prime Sukhumvit.

Project Scope : Installation of complex exterior fins, premium cladding, and architectural glazing. Construction of a private rooftop infinity pool and integrated outdoor lounge areas.

Key Deliverables : Façade installations and exterior architectural works executed with exceptional craftsmanship, reflecting a refined luxury aesthetic.

Excellence in Execution : Efficient management of urban site logistics, with a strong focus on safety and the prevention of environmental impacts on the surrounding area.

PROJECT

LUXURY INTERIOR FIT-OUT & RENOVATION

Location : Poipet

Scope of work : Bespoke Interior Fit-Out Works

Project Scope : Interior works, ranging from decorative wall paneling to custom-built furniture. Premium materials are selected, such as marble, gold-colored stainless steel, and specially finished wood.

Key Deliverables : A luxurious living space reflecting sophisticated taste, featuring high-gloss checkerboard marble flooring.

Excellence in Execution : Our team of highly skilled craftsmen specializes in meticulous work, particularly in joints and precise corner joining, ensuring perfect final finishing and a 100% ready-to-move-in space for our clients.

Our team emphasizes high craftsmanship in every seam of materials and perfect final detailing, reflecting an image of luxury and international taste.

PROJECT LEADERSHIP & QUALITY CONTROL

Direct on-site management by experienced project leaders to ensure technical precision. Professional coordination meetings with stakeholders to align on project objectives and timelines.

On-site Engineering Leadership

Strategic Project Planning & On-site Quality Audits

Technical Compliance
& Effective Collaboration

Active Leadership & Problem-Solving Expertise
